

**Sept 2013**

*Brian Burke, editor*

## **NEXT CLUB MEETING EARLY**

**Date:** Saturday September 21, 2013

**Time:** 10:00 AM

**Place:** Gyro club hangar, Lansing Muni Airport

**Agenda Topic(s):**

- *Upcoming evnets*
- *Officer Nominations*
- *Training Options*
- *Keho Update*

*NO Luncheon afterwards GOING TO Kankakee*

## **August Meeting Summary**

This past meeting was well attended. We voted to purchase a bore scope and a differential compression tester from Harbor Freight. A bore scope can be especially helpful in determining the condition of cylinders without having to do any disassembly or replace any gaskets. The Eagle's Perch UL coaxial helicopter has been sold. We've also sold two sets of rotor blades and, as of this writing, are awaiting payment Thanks to the generosity of the Kehoe estate, the club is in very good financial health.

## **HANGAR STORIES**

There has been a good amount of flying this year with Kevin Tanzor flying his Screamin' Ostrich all the way to Mentone for the convention. After my engine out before the last meeting, I decided to go with a different engine, my new (to me) 582 is currently being rebuilt by Jim Leon at the Greater Kankakee Airport. Jim has a nice operation there and does a very professional job; I would highly recommend him to anyone needing Rotax work done. Hopefully I'll have my engine back from him in the next few weeks and get to fly again before the snow flies... *AH*

## **BRIAN'S THOUGHT**

Through the years, many club projects have been funded by the generosity of club members remembering the club in their wills or trusts. Donating the Gyro related things also comforts the family. Often the lack of knowledge about gyro related equipment and concerns about liability have been another burden at a difficult time. Please think how your donation can lessen the family's difficult decisions and help your friends.

Adam has helped setting up wills and trusts in the past and can help you. *BJB*
