

PRA Monthly e-news

The PRA Chapter 30 meeting will be held October 18th at Randy Rogers hangar, Auburn Airport. The meeting will start about 9:30 and end around 12:00. Directions are at the end of this e-mail.

We will have a chance to meet the new owners of the SparrowHawk used for training. This is the black one Randy Coplen just sold to Norm and Eileen Bolser. The Bolser's have already installed some new improvements. We are also going to take sound measurements to compare our gyro noise levels to other aircraft as well as between our gyros. Training may be available through David Overman 253 848 9113 depending on weather.

Other News,

Jeff Robb one of our newest members and owner of a single place air command (now at Randy's hangar) had a successful emergency landing last month. There was no damage or injury. He is learning the fuel limits of his new aircraft!

Directions to Auburn Airport

Park outside and enter through the walk-in gate. If you don't already know the combination to get in, call Randy Rogers 206 669 1877. Once in, go to the right to the end row, hangar #503.
